SUMMARY

I am a passionate Computer Engineering student with hands-on experience in Android app development and web technologies. Proficient in Java, Python, and SQL, with a solid understanding of data structures and algorithms. I enjoy solving complex problems and applying creative thinking to build real-world software solutions. Eager to contribute to innovative and impactful projects as part of a dynamic development team.

EXPERIENCE

Data Analytics Intern

CSRBOX

07/2025 - 07/2025 Ahmedabad

CSRBOX Foundation in Collaboration with IBM SkillsBuild

- I have successfully completed a 15-day online summer internship in Data Analytics organized by CSRBOX Foundation in collaboration with IBM SkillsBuild from July 2 to July 16, 2025. During this internship, I explored the fundamentals of data analytics and gained practical experience in data cleaning, transformation, and visualization using tools such as Excel, along with introductory exposure to Tableau. I learned how to interpret and present data insights effectively through charts and dashboards, while working with real-world datasets to understand core data analysis concepts and decision-making strategies. This internship provided hands-on experience with industry-relevant practices and deepened my interest in solving problems through data-driven approaches.
